EDUCATION

Bachelor of Science in Computer Science
Superior University Gold Campus, Lahore, Pakistan
November 2021 – Continue

- **Relevant Coursework:** Web Development, Data Structures, Algorithms

Intermediate Computer Science
Punjab College Shahdara Campus, Lahore, Pakistan
August 2019 – June 2021

TECHNICAL SKILLS

Languages & Frameworks:

- JavaScript (ES6+)
- PHP
- React.JS
- Bootstrap
- HTML5
- CSS3

Tools:

- Git
- VS Code
- GitHub

Concepts:

- Front-End Development
- Responsive Design
- Performance Optimization

Soft Skills:

- Communication
- Analytical Thinking
- Creativity

WORK EXPERIENCE

Web Developer Intern
CodeAlpha
April 2024 – July 2024

- **Enhanced Interfaces:** Improved user interfaces and user experience on multiple web projects, leading to a 25% increase in user satisfaction.
- **Applied Technologies:** Utilized modern web technologies in 4 major projects, enhancing functionality and performance.
- **Innovated Solutions:** Partnered with the team to develop and implement creative solutions, boosting project efficiency by 15%.
- **Elevated Practices:** Refined coding standards and development techniques, reducing code review times by 20%.
- **Strengthened Team Collaboration:** Contributed to team dynamics and project success, increasing productivity by 30%.

PROJECTS

Netflix Clone

Project Link

- **Designed Interface:** Created a Netflix-inspired UI using HTML and CSS, enhancing visual appeal and navigation.
- **Optimized Layout:** Implemented responsive design to ensure consistent viewing across devices.

Amazon Clone

Project Link

- **Replicated Design:** Developed an Amazon-like interface using HTML and CSS, focusing on user-friendly navigation.
- **Ensured Responsiveness:** Applied responsive design techniques for accessibility across various devices.

E-Commerce Website

Project Link

- **Crafted Visuals:** Designed a high-quality e-commerce site with dynamic carousels, increasing user interaction by 20%.
- **Adapted Layout:** Developed a responsive layout to accommodate various screen sizes, enhancing user experience.

Coding Website

Project Link

- **Built Single-Page Site:** Designed an interactive single-page site with CSS, improving user engagement through dynamic features.
- **Streamlined Layout:** Created a minimalist layout for ease of navigation, increasing user retention by 15%.

Restaurant Website

[Project Link](#)

- **Developed Multi page Site:** Built a responsive site with interactive features, facilitating user interaction and reservations.
- **Integrated Systems:** Added a reservation system and contact form, increasing customer inquiries by 25%.

Clinical Website

[Project Link](#)

- **Implemented Booking System:** Developed an appointment booking system with PHP and database integration, improving scheduling efficiency by 30%.
- **Managed Availability:** Handled slot availability and error management, reducing booking errors by 20%.

Crowdfunding Website

[Project Link](#)

- **Engineered Multi-Page Site:** Created a multi-page site with React.js, focusing on dynamic content and user interactions.
- **Optimized Performance:** Applied best practices for state management and performance, enhancing load times by 25%.

Additional Projects:

- Developed several other projects demonstrating front-end development skills and practical application.

ADDITIONAL INFORMATION

- **Version Control:** Proficient in using Git for version control, effectively managing code changes and collaborating with teams.

LANGUAGES

- **English:** Proficient
- **Urdu:** Native

INTERESTS

- **Collecting:** Passionate about collecting unique items.
