

# ARIBA NAZ

Frontend Engineer | React.js Developer

Lahore, Pakistan | +92-310-4919938 | nazariba84@gmail.com | github.com/AribaNaz499 | aribanaz-portfolio.vercel.app |  
linkedin.com/in/aribanaz0011

## PROFESSIONAL SUMMARY

Frontend Engineer with hands-on experience building scalable, production-ready web applications using React.js, modern JavaScript, and full-stack technologies. Proven expertise in responsive UI design, payment systems, authentication architectures, AI-powered tools, and real-time features using Supabase and PostgreSQL. Published researcher with demonstrated ability to deliver complete product solutions in collaborative development environments.

## TECHNICAL EXPERTISE

**Frontend:** React.js (Hooks, Context API, State Management) | JavaScript (ES6+) | HTML5 | CSS3 | Responsive Web Design | Cross-Browser Optimization | Performance Optimization

**UI/UX & Design:** Tailwind CSS | Chakra UI | Bootstrap | Figma | PSD to Code Conversion | Pixel-Perfect Implementation | Mobile-First Design

**Backend & Database:** Supabase | PostgreSQL | REST API Integration | Real-time Database Operations | Authentication & Authorization

**AI Integration:** Google Gemini API | Conversational AI Chat Interfaces | Prompt-based Response Handling

**Advanced Integrations:** Stripe Payment Gateway | Webhooks | QR Code Generation | Media Upload & Processing (Video & Audio) | Google Books API | Automated Email Services | Drag-and-Drop Systems

**Developer Tools:** Git | GitHub | VS Code | npm

## PROFESSIONAL EXPERIENCE

### React Developer (Full-Stack) | Micro Tech London

Feb 2026 – May 2026

- Built a complete full-stack personalized design editor platform using React.js, Supabase, PostgreSQL, and Stripe — covering payment processing, drag-and-drop canvas, and customizable template system for greeting cards and printable products.
- Engineered admin dashboard enabling dynamic template creation with real-time synchronization across user-facing interfaces.
- Integrated automated PDF generation and transactional email delivery, ensuring a seamless end-to-end customer experience.
- Contributed to additional company projects and independently developed the complete frontend for a client platform (Lumine Law – UK Legal Services).

### Frontend Developer | Einnovation

Jun 2025 – Sep 2025

- Converted Photoshop (PSD) designs into responsive web pages and projects using HTML5, CSS3, and JavaScript.
- Worked on multiple PSD-to-HTML conversion projects, maintaining accuracy in spacing, typography, and layout.
- Collaborated with design and development teams to ensure consistent UI implementation.

### Frontend Developer | CodeAlpha

Apr 2024 – Jul 2024

- Completed a series of mini frontend tasks and projects using HTML5, CSS3, and JavaScript to build interactive UI components.
- Strengthened core frontend fundamentals through hands-on practice and participated in peer code reviews.

## FEATURED PROJECTS

### Full-Stack Personalized Design Editor & E-Commerce Platform

React.js | Supabase | PostgreSQL | Tailwind CSS | Stripe API | JavaScript ES6+

- Developed design-to-print platform with interactive multi-step editing workflow, real-time previews, template management, and image manipulation.

- Built complete e-commerce flow: shopping cart → Stripe payment → automated PDF generation → transactional email delivery.
- Implemented admin dashboard for dynamic template management and production-grade secure user authentication.

### AI-Powered Chat Assistant (ChatGPT-like Tool) — Personal Project

React.js | Gemini API | JavaScript ES6+ | Tailwind CSS

- Built a conversational AI chat application by integrating Google's Gemini API with a React.js frontend, enabling real-time, ChatGPT-like question answering.
- Designed a responsive chat interface with message history, loading states, and dynamic rendering of AI-generated responses.
- Implemented API request handling and response parsing to deliver fast, context-aware conversational experiences.

### Lumine Law - UK Legal Services Platform (Client Project)

React.js | Chakra UI

lumine-law-main.vercel.app | luminelaw.co.uk

- Developed complete frontend architecture of UK-based legal services platform with responsive, accessible interfaces.
- Engineered reusable component library and scalable frontend structure ensuring cross-browser compatibility and mobile-first design.

### Online Library Search Engine

React.js | Google Books API | REST APIs

- Built real-time book discovery platform with advanced search, filtering, and asynchronous data fetching integrating Google Books API.

Additional: Weather App (OpenWeatherMap API) | Interactive Quiz Website | E-Commerce Platform | Responsive Web Designs

## RESEARCH & PUBLICATIONS

---

- Published 2 research papers in Asian Bulletin of Big Data Management (ABBDM Journal) — Big Data Architecture, Data Processing Optimization, and scalable technology solutions.

## EDUCATION

---

Bachelor of Science in Computer Science — Superior University, Gold Campus | 2021 – 2025

Intermediate in Computer Science — Punjab College, Shahdara | 2019 – 2021

## LANGUAGES

---

English (Proficient) | Urdu (Native)
